DAY 2 - THE AMALFI COAST

The Amalfi Coast drive is arguably the world's most beautiful road. It stretches for scenic 30 miles between Sorrento and Amalfi- the community that gave this coast its name. Picturesque villages cling precariously to steep sea cliffs with breathtaking rocky-shoreline vistas. The landscape is profuse with bright-hued flowers - and the coastal air is rich in fresh ocean-spray scents. Today we view Positano from above and make a stop in Amalfi for lunch at leisure.

This afternoon we board a hydrofoil (boat) from Amalfi to Maiori to meet up again with our coach. There is the option to walk 'The Path of the Lemons' (Sentiero dei Limoni) on a panoramic hiking trail that winds between Maiori and Minori, two picturesque coastal towns not far from Amalfi and Positano. The path is mostly paved and is a walk of approximately 2 miles. This is well worth the effort because The Path of lemons is much more than a common path - through the ups and downs of its narrow streets and steps you will experience first-hand the tradition of the local Amalfi lemons and see the terraces where these fruits grow. Those who choose not to take the path of lemons will spend a little extra time in Maiori, perhaps seeking out the local limoncello and lemon pastries for themselves.

At the end of the day we return to Sorrento for an evening at leisure.

Accommodation: Sorrento

DAY 3 - POMPEI & MOUNT VESUVIUS

Today we will visit the UNESCO World Heritage site of Pompeii with a local expert. Pompeii is an ancient Roman city, buried and remarkably preserved under volcanic ash following the eruption of Mount Vesuvius in 79 AD. It provides a unique archaeological record of daily Roman life, showcasing intact buildings, artifacts, and plaster casts of inhabitants frozen in time. We will enjoy a fascinating guided walking tour here. The streets are uneven and it can get hot, so do dress appropriately.

Afterwards we will enjoy lunch together in the foothills of Mount Vesuvius. Mount Vesuvius ranks among the most well known volcanoes on earth. On clear days one can see the silhouette of this gigantic presence from the whole of the Bay of Naples. The volcano, with its nickname of "the hunchback", is seen as a friendly companion by the people of Naples in spite of its destructive potential.

After lunch, we continue up to enjoy the the 1,000 metre altitude point, where there is the option to visit the crater with our own volcanologist guide. We will learn more about the geology of this area before returning to Sorrento for an evening at leisure
